

CAPTAIN'S GIVING BACK

We would like to establish an ongoing fishing service for special needs and foster kids. These trips will be supported by donations from your charters and 100% of the money from your charters goes toward the cost of these trips on your boat. We will ensure with your pictures, that all publications promote each trip you conduct. This whole thing is about creating a partnership that benefits all by supporting our dream. We will do our part to promote your business.

What does Restoring Hope, Inc. (RHI) get out of it? As our public recognition grows our fundraising grows. Our goal is to build the first fishing boat in the world that is designed specifically for mentally and physically disabled kids. This boat will be primarily in lakes, but is large enough to fish anywhere. Ultimately, we would bring the boat to the Bay or Delta for special events with you.

Part of this "partnership" includes RHI establishing relationships with Western Outdoor News, Fishsniffer, Fishing USA, Stingem, and all local sports reporters for special event coverage. We also will be pursuing national magazines and television shows.

What we would ask from you is a visible bumper sticker size emblem on your boat. An RHI donation receptacle, and web link to each other. There are no contracts and you can decide at any time for any reason to discontinue working together. We operate with 100% transparency. The money raised by your clients shall be tracked for you and reserved for trips at your request.

A six-pack boat would typically have 4 kids and 2 adults. We would work together to service kids by your schedule and disabilities you are comfortable with. A party boat would have approximately the same ratio.

Restoring Hope, Inc. is not affiliated with any charter service. Yes, an inactive board member is a charter captain, however RHI does not show any favoritism or special consideration. This is about getting kids out fishing that otherwise could not.

RHI is a conduit bringing the two worlds together. This whole thing is about the kids and the captains that take them out. This will never cost you a dime, and the rewards are huge. Please consider supporting our organization and kids less fortunate.

Please contact me for additional information either by email or (209) 480-2322 (my personal cell phone number).

Sincerely,

Steve Thurman,
Executive Director

Restoring Hope, Inc.
